

Call Script

Opening

Hi, this is [Name] with [Company].

I'm reaching out because many businesses are looking for ways to improve customer service without increasing payroll. Do you have a quick minute?

Discovery Questions

- How does your business currently handle calls after hours?
- Do you ever miss customer calls during busy periods?
- How much time does your staff spend answering the same questions every day?
- Do customers schedule appointments or request information over the phone?
- Would capturing more leads or reducing missed opportunities benefit your business?

Value Statement

Many businesses are finding that an AI-powered virtual assistant can answer every call, provide business information, schedule appointments, qualify leads, and handle routine customer questions automatically.

That allows employees to focus on higher-value work while ensuring customers always receive a fast response.

Business Benefits

Our solution can help you:

- Answer calls 24/7
- Reduce hold times
- Capture more leads
- Automate repetitive conversations
- Improve customer satisfaction
- Scale customer service without adding staff

Closing

I'd love to show you how businesses are using AI to improve customer service while saving time.

Would next Tuesday or Wednesday work for a quick 20-minute demo?
